

**FOR IMMEDIATE RELEASE**

**Radimmune Therapeutics to present at the Biotech Showcase Annual Conference on January 8, 2018**

**Menlo Park, CA, December 4, 2018** - Radimmune Therapeutics will be presenting at the Biotech Showcase 2018 at the San Francisco Hilton on Monday, January 8<sup>th</sup>, 2018 at 9am Pacific. The presentation will be in Franciscan – B (Ballroom Level)

Radimmune Therapeutics is an early stage biotechnology company pioneering innovative therapies via its proprietary antibody drug conjugation platform for melanoma, pancreatic and other cancers.

The company will be discussing its three programs focused in oncology (melanoma, pancreatic, prostate) and its schedule to launch a Phase 1 clinical trial in melanoma by year-end 2018. The company is moving rapidly on development of its pancreatic and prostate cancer programs as well as broadening its robust ADC platform.

The company is led by an experienced management team that has both taken companies public and led successful oncology clinical development programs. In addition, Scientific Advisors include Dr. David Rickles, MD, Radiation Oncologist and Assistant Clinical Professor, David Geffen UCLA School of Medicine, Dr. Ekaterina (Kate) Dadachova, PhD, Fedoruk Center for Nuclear Innovation Chair in Radiopharmacy, University of Saskatchewan, Dr. Arturo Casadevall, MD, Bloomberg Distinguished Professor of Molecular Biology & Immunology, Johns Hopkins School of Medicine and Dr. Steven O'Day, MD, Director of Immuno-Oncology and Clinical Research, John Wayne Cancer Institute.

Sarah Demy-Colton, CEO of Demy-Colton, said: "We are delighted that Radimmune Therapeutics will be presenting at the Biotech Showcase this year. Biotech Showcase is the perfect platform for life sciences companies to showcase their innovation and seek out their next deal. This year again we are thrilled to be hosting what we believe will be the great business development opportunity of 2018".
